"High hazard connection" means any vessel, piping arrangement, or other direct connection to a public water supply containing any solid, liquid, or gaseous matter, any odor or any form of energy which, when present in the public water supply distribution system, may cause the water to degrade so that the water quality standards of this Subtitle are not met or physical illness or injury to persons consuming the water could result.

"Illinois State Plumbing Code" means 77 Ill. Adm. Code 890.

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

"Indirect cross-connection" means a cross-connection formed when an unknown substance can be forced-drawn by vacuum or otherwise introduced into a potable water system.

"Industrial establishment" means a building or building complex which houses mechanical or manufacturing activities.

"Institutional establishment" means a building or building complex which houses activities for social, health, educational, or religious purposes such as hospitals, sanitariums, correctional facilities, schools, churches, or charitable organizations or agencies.

"Interconnection" means a physical connection between two or more potable water systems.

"Isolation" means the proper installation of an approved backflow device or assembly at each connection within the private water system, between the public water supply and each piping arrangement or plumbing appurtenance on those private premises.

"Low hazard connection" means any vessel, piping arrangement, or other direct connection to a public water supply containing any solid, liquid, or gaseous matter, any odor or form of energy which, when present in the public water supply distribution system, may cause the water to be aesthetically degraded to the senses of taste, sight or smell without tending to cause any actual physical illness or injury to persons consuming the water.

"National consensus standards" mean standards which are adopted by a nationally recognized organization which examines devices for such elements as the minimum requirements for the design, installation, operation and safety aspects of such devices, evaluated on the basis of sound engineering principles, test data, and field experience.

"NFPA" means the National Fire Protection Association, Batterymarch Park, Quincy, Massachusetts 02269.

"Non-potable source" is any source of water not an integral part of a public water supply or approved by the Agency to be connected to a public water supply according to Section 608.202(e).

"Official custodian" means any officer of an organization

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

This act amends the Illinois Environmental Protection Act to provide an alternative groundwater protection program for certain agricultural facilities currently subject to 35 Ill. Adm. Code for 616. The purpose of the instant rulemaking is to conform the Part 616 regulations with P.A. 87-1108.
The current Part 616 rules regulate new agricultural facilities that are located within setback zones of potable water wells, with an effective compliance date of January 1, 1993. Under the provisions of PA 87-1108 facilities may elect to opt out of the Part 616 program and instead participate in an alternative groundwater protection program to be administered by the Illinois Department of Agriculture.

NOTICE OF PROPOSED AMENDMENTS

- 1) Heading of the Part: Medical Payment
- 2) Code Citation: 89 Ill. Adm. Code 140
- 3) Section Numbers:
140.485
140.488
- Proposed Action:
Amendment
Amendment
- 4) Statutory Authority: Sections 12-13 of the Illinois Public Aid Code (Ill. Rev. Stat. 1991, ch. 23, pars. 12-13)
- 5) Complete Description of the Subjects and Issues Involved:

Proposed amendments are being made to the Healthy Kids Program (Section 140.485), to comply with the Lead Poisoning Prevention Act (Public Act 87-175). The amendments provide for the diagnostic procedure, blood lead screening, for children between six months and six years of age, at intervals prescribed by the American Academy of Pediatric Guidelines. Screenings and medical follow-up will occur in accordance with the Department of Public Health's "Guidelines for the Detection and Management of Lead Poisoning for Physicians and Health Care Providers." The Department will also pay for an epidemiological study of the living environment of a child identified as having an elevated blood lead level, to identify the source of exposure.

A revision is proposed for Section 140.488(f)(6), to delete the reference to Erythrocyte Protoporphyrin (EP) as a covered laboratory procedure. This is necessary to eliminate payment for an outdated method which does not delete low lead levels.

Technical changes are being proposed throughout Sections 140.485 and 140.488 to correct punctuation errors and eliminate numerical duplications. Numbers of ten or less are written as words, while larger numbers are expressed as numerals. The use of both methods of expression is being eliminated because it is repetitious and unnecessary.

The estimated aggregate annual increase in the Department's expenditures, resulting from these changes, is expected to be approximately \$1,200,000.

- 6) Will these proposed amendments replace emergency amendments currently in effect? No
- 7) Does this rulemaking contain an automatic repeal date? No
- 8) Do these proposed amendments contain incorporations by reference? No

Nursing Home Care Act

Ill. Rev. Stat. 1991, ch. 111 1/2, par. 4151-101 et seq.

5) A Complete Description of the Subjects and Issues Involved:

The rules in Part 390 govern the licensure of long-term care facilities for persons under age 22. The Department is amending its rules to implement Public Act 87-567 (Senate Bill 587), effective January 1, 1992. Public Act 87-567 amends the Nursing Home Care Act to require every facility licensed under the Act to establish a policy for the implementation of physician orders limiting resuscitation, such as those commonly referred to as "Do-Not-Resuscitate" orders.

This rulemaking adds a new Section 390.1025 -- "Life-Sustaining Treatments" -- to the Department's existing rules. The new provisions require facilities to establish policies concerning the implementation of residents' rights to make decisions relating to their own medical treatment. The rules define "life-sustaining treatment" and set forth the elements that must be included in the facility's policy. Other requirements include the provision of information to residents concerning the treatment options and advance directives available to them; documentation of the resident's decision in the medical record; confirmation of the resident's decision by the physician; procedures for amending the resident's decision and for provision of treatment in the absence of a choice of life-sustaining treatment by the resident. The rules also prohibit discrimination in the provision of health care on the basis of the resident's decision concerning life-sustaining treatment.

The economic effect of this proposed rulemaking is unknown. Therefore, the Department requests any information that would assist in calculating this effect.

The Department anticipates adoption of this rulemaking approximately six to nine months after the publication of the notice in the Illinois Register.

4) Statutory Authority:Nursing Home Care Act
Ill. Rev. Stat. 1991, ch. 111 1/2, par. 4151-101 et seq.5) A Complete Description of the Subjects and Issues Involved:

The rules in Part 330 govern the licensure of sheltered care facilities. The Department is amending its rules to implement Public Act 87-567 (Senate Bill 587), effective January 1, 1992. Public Act 87-567 amends the Nursing Home Care Act to require every facility licensed under the Act to establish a policy for the implementation of physician orders limiting resuscitation, such as those commonly referred to as "Do-Not-Resuscitate" orders.

This rulemaking adds a new Section 330.1125 -- "Life-Sustaining Treatments" -- to the Department's existing rules. The new provisions require facilities to establish policies concerning the implementation of residents' rights to make decisions relating to their own medical treatment. The rules define "life-sustaining treatment" and set forth the elements that must be included in the facility's policy. Other requirements include the provision of information to residents concerning the treatment options and advance directives available to them; documentation of the resident's decision in the medical records; confirmation of the resident's decision by the physician; procedures for amending the resident's decision and for provision of treatment in the absence of a choice of life-sustaining treatment by the resident. The rules also prohibit discrimination in the provision of health care on the basis of the resident's decision concerning life-sustaining treatment.

The economic effect of this proposed rulemaking is unknown. Therefore, the Department requests any information that would assist in calculating this effect.

The Department anticipates adoption of this rulemaking approximately six to nine months after the publication of the notice in the Illinois Register.

Ill. Rev. Stat. 1991, ch. 111 1/2, par. 4151-101 et seq.

5) A Complete Description of the Subjects and Issues Involved:

The rules in Part 300 govern the licensure of skilled nursing and intermediate care facilities. The Department is amending its rules to implement Public Act 87-567 (Senate Bill 587), effective January 1, 1992. Public Act 87-567 amends the Nursing Home Care Act to require every facility licensed under the Act to establish a policy for the implementation of physician orders limiting resuscitation, such as those commonly referred to as "Do-Not-Resuscitate" orders.

This rulemaking adds a new Section 300.1035 -- "Life-Sustaining Treatments" -- to the Department's existing rules. The new provision requires facilities to establish policies concerning the implementation of residents' rights to make decisions relating to their own medical treatment. The rules define "life-sustaining treatment" and set forth the elements that must be included in the facility's policy. Other requirements include the provision of information to residents concerning the treatment options and advance directives available to them; documentation of the resident's decision in the medical records; confirmation of the resident's decision by the physician; procedures for amending the resident's decision and for provision of treatment in the absence of a choice of life-sustaining treatment by the resident. The rules also prohibit discrimination in the provision of health care on the basis of the resident's decision concerning life-sustaining treatment.

The economic effect of this proposed rulemaking is unknown. Therefore, the Department requests any information that would assist in calculating this effect.

The Department anticipates adoption of this rulemaking approximately six to nine months after the publication of the notice in the Illinois Register.

Section 305.20 Definitions

"Abandonment" means parental conduct which demonstrates the purpose of relinquishing all parental rights and claims to the child.

"Administrative case review" means a review open to the participation of the parents of the child, conducted by a panel of appropriate persons at least one of whom is not responsible for the case management of, or the delivery of services to, either the child or the parents who are the subjects of the review.

"Children for whom the Department is legally responsible" means children for whom the Department has temporary protective custody,

DEPARTMENT OF CHILDREN AND FAMILY SERVICES

NOTICE OF ADOPTED AMENDMENT(S)

custody or guardianship via court order, or children whose parent(s) have signed an adoptive surrender or voluntary placement agreement with the Department.

"Department client" means a child or a family who is receiving child welfare services either directly from the Department or through a purchase of service provider.

"Desertion" means parental conduct which evidences an intention to permanently terminate custody of a child, but not to relinquish all parental rights, claims and responsibilities.

"Discharge planning" means service planning which focuses on providing a smooth transition from Department guardianship or custody and the receipt of child welfare services to discharge from guardianship or custody and the termination of child welfare services.

"Individual treatment plan (ITP)" or "treatment plan" as defined in 59 Ill. Adm. Code 132, Medicaid Community Mental Health Services, means a written document developed by the appropriate service provider staff with the participation of the client with a mental illness and, if applicable, the client's guardian, which specifies the client's diagnosis, problems, and service needs to be addressed, the intermediate objectives and long-term goals for the services and the planned interventions for achieving these goals.

"Individualized Education Plan/Program (IEP)" means the document prepared by the local school district, as a result of a Multidisciplinary Conference, that identifies the specific special education services that will be provided to the child. The IEP also includes education goals, services, frequency, quantity and duration. IEP is further defined in 23 Ill. Adm. Code 226, Special Education.

"Individualized Family Service Plan (IFSP)" means a written working document developed for each child in order to facilitate the provisions of Early Intervention (EI) services. The IFSP is created by the family, an inter-disciplinary team, the core EI agency, and the case manager (service coordinator). The EI agency is responsible for coordinating the IFSP implementation.

"Minimum parenting standards" means that a parent or other person responsible for the child's welfare sees that the child is fed, clothed appropriately for the weather conditions, provided with adequate shelter, protected from severe physical, mental and emotional harm, and provided with necessary medical care and education required by law. A parent who has abandoned a child, deserted a child for three months, or failed to demonstrate a reasonable degree of interest, concern, or responsibility as to the welfare of a newborn child for 30 days after birth is deemed to have failed to have met the

minimum parenting standards. In addition, a parent who is addicted to alcohol or who is a drug addict, as defined in the ~~Parental-Drug Abuse-Act~~, ~~1979~~, ~~ch. 112~~, ~~par. 1-3~~ and ~~190-3-4~~ Illinois Alcoholism and Other Drug Dependency Act (Ill. Rev. Stat. 1991, ch. 111 1/2, par. 635.1-3) and who has consistently failed to cooperate in a rehabilitation program for a period of at least twelve months is deemed to have failed to have met the minimum parenting standards unless the child's safety and well-being have been ensured despite the parent's addiction.

"Parents" means the child's legal parents whose rights have not been terminated and adoptive parents. ~~Biological-or-adoptive-parents-or-the-child's-legal-guardian-if-the-legal-guardian-is-not-a-public-or-private-agency.~~ Putative fathers are considered legal parents when paternity has been acknowledged in writing or adjudicated in court.

"Permanency goal" means the continuous living arrangement which the Department deems desirable for and available to the child. A permanent legal status is usually a component of the permanency goal. The means for attaining a permanency goal as well as the goal itself can change as the child's developmental and emotional needs change or as the child's and family's circumstances change.

"Permanent family placement" means placement in a foster family home or a relative home which is intended to last until the child reaches age 21 or until the child is capable of self-sufficiency. "Service plan" means a written plan on a form prescribed by the Department which guides all participants in the plan toward the permanency goals for the children.

Section 305.30 Introduction to Client Service Planning

a) Principles of Client Service Planning

1) Client service planning is an on-going process that must begin with an assessment of client need in relation to Department service mandates and must include periodic reassessment of such needs in light of the services provided, the permanency goal, and the progress toward achieving the goal.

2) Case planning must ensure accountability on the part of clients, the Department and other service providers through written documentation of expectations and obligations. This documentation should include:

A) a desired permanent living arrangement for each child served that is recorded in the service plan as a permanency goal;

B) identification of problems that must be resolved to achieve this status, including, when applicable, achievement of minimum parenting standards;

C) identification of measurable changes or outcomes that will signify problem resolution;

D) identification of what the Department and other service providers will provide toward achieving the desired permanent living arrangement;

E) identification of applicable timeframes; and

F) identification of any consequences to the client if the timeframes are not met.

3) Although the Department maintains ultimate responsibility for the service plan, case planning must be an inclusive process in which all of the participants in a case (parents, children, service providers) are given the opportunity to have input.

4) Case planning activities, including development of the service plan and case review, reflect and must be consistent with federal and State requirements, e.g., 42 U.S.C. 675 (1991) and Ill. Rev. Stat. 1991, ch. 23, par. 5006a.

b) The Need for a Permanent, Secure and Nurturing Home

1) The Department recognizes that children need permanent, secure, and nurturing homes for healthy psychological development in order to mature to stable adulthood. Therefore, the Department strives to preserve family life and to stabilize children's homes, whenever possible, and to assist in the solution of problems which are likely to result in the abuse, neglect, or

DEPARTMENT OF CHILDREN AND FAMILY SERVICES

NOTICE OF ADOPTED AMENDMENT(S)

exploitation of children.

2) When children and families must be separated to reduce or prevent harm to the children, the Department strives to reunite families as quickly as is consistent with the children's safety and well-being. Infrequently, children and families cannot be reunited because the parents are unable or unwilling to care for the children and therefore cannot achieve the minimum parenting standards. When this occurs the Department strives to find other permanent homes for children.

c) The Child's Sense of Time and The Importance of Aggressive Planning

1) The Department recognizes that children have a different sense of time than adults. What seems like a short family disruption or a brief separation to adults may be a very painful and intolerably long period for children. In general, younger children are less able to tolerate periods of separation than older children. For this reason, the Department shall act promptly using the best information available when dealing with children and their families.

2) The Department believes that aggressive planning with an emphasis on decision making, followed by the actions needed to carry out those decisions, will secure permanent homes for children. Therefore, the Department requires service planning directed toward a permanency goal beginning from the earliest contacts with children and families. Through service planning the Department strives to assure that children are in permanent homes as quickly as is consistent with their safety and well-being while recognizing the urgency caused by the child's sense of time.

d) The Use of Outside Consultation

1) The Department recognizes the gravity of the decisions that must be made and, recognizing the urgency caused by the child's sense of time, the importance of acting deliberately, yet promptly, on each case. Therefore, the Department strives to consult professionals and agencies outside the Department and to seek a balance of opinions from the following public and private agencies, when appropriate:

A) health, education and social service agencies;

B) law enforcement agencies; and

C) other agencies, organizations, or programs which provide or are concerned with human services.

2) This consultation allows Department staff to attain a broad perspective on the alternatives available to children and families and on the potential impact of these alternatives on the lives of the children and families served.

e) The Critical Decisions

1) Although all Department decisions affecting children and families are important, the Department identifies the following decisions as the most critical ones affecting children and families:

A) deciding whether to remove children from the home of their

DEPARTMENT OF CHILDREN AND FAMILY SERVICES

NOTICE OF ADOPTED AMENDMENT(S)

parents or whether services can prevent placement away from their parents;

B) deciding whether to return children to the home of their parents from a placement away from their parents;

C) deciding whether to decrease the frequency or the duration of parent-child visits and whether the visits should be supervised;

D) deciding whether to change children's placements;

E) deciding whether parental rights should be terminated and an alternate permanent home sought; and

F) deciding if children are prepared for partial or total independence.

2) When making a critical decision, any opinions or recommendations from professionals or agencies outside the Department shall be carefully weighed. In addition, the Department requires the participation of children and families in service planning and decision-making to the greatest extent possible.

(Source: Amended at 16 Ill. Reg. 16552, effective October 19, 1992)

Section 305.40 Types of Permanency Goals

a) The Department shall consider the recommendations of the purchase of service providers, if any, and shall select permanency goals for the children and families it serves in order to guide service planning and achieve permanent homes for children. The Department shall ensure that services provided to children and families move them toward the permanency goals. The permanency goals are:

1) Remaining at Home;

2) Returning Home;

3) Adoption;

4) Permanent Family Placement

A) with an unrelated foster family;

B) with relatives;

5) Independence;

6) Long Term Care in a Residential Facility; and

7) Substitute Care Pending Court Decision Regarding Termination of Parental Rights.

b) When selecting a permanency goal, the Department shall use the criteria in this Section.

1) Remaining at Home

Remaining home with their parents is the preferred goal when the child's safety and well-being are not clearly endangered if allowed to remain at home. This permanency goal is consistent with the Department's service goal of family preservation. It emphasizes the importance of keeping families together and also stresses that the family is primarily responsible for caring for the child. In addition, this permanency goal is usually the

DEPARTMENT OF CHILDREN AND FAMILY SERVICES

NOTICE OF ADOPTED AMENDMENT(S)

least disruptive to family life.

2) Returning Home

A) Returning children to their parent's homes is the preferred goal for children who have been placed in substitute care away from their parents. This permanency goal is consistent with the Department's service goal of family reunification. It reinforces the family's responsibility to care for their children and maintain the family relationship. Furthermore, this permanency goal is usually the least traumatic alternative for both the families and children. Returning home should be established as the permanency goal:

i) when the parents appear to have the capability to attain the minimum parenting standards with the aid of family reunification services; and

ii) when the parents are cooperative with the Department and its purchase of service providers, if any, and want to resolve the problems.

B) Returning home should be continued as the permanency goal as long as the parents are substantially complying with the requirements of the service plan and are progressing satisfactorily toward the permanency goal.

3) Adoption

Adoption is the preferred permanency goal when parental rights have been terminated on a child. This permanency goal is to be established only:

A) after both parents have signed adoptive surrenders; or

B) after a court has terminated the parental rights of both parents and has designated the Department as guardian with the power to consent to the child's adoption; or

C) after one parent has signed an adoptive surrender and parental rights have been terminated on the remaining parent through court action; or

D) when one parent has signed an adoptive surrender and the identity and/or the whereabouts of the remaining parent is unknown, and the Department expects the parental rights of the remaining parent to be terminated through court action; and

E) the child, if 14 years of age or over, consents to the adoption.

4) Permanent Family Placement

A) Although a permanent family placement is more desirable than a series of short-term placements, it is not a preferred permanency goal for the child. Without the legal safeguards offered by a permanent legal guardian, a permanent family placement may fail to provide the child with a sense of belonging and permanency. A permanent family placement is the permanency goal only:

i) when to return the child home is not consistent with ensuring the child's safety and well-being; and

DEPARTMENT OF CHILDREN AND FAMILY SERVICES

NOTICE OF ADOPTED AMENDMENT(S)

- ii) when the child, if 14 years of age or older, clearly does not want to be adopted or the child, if under age 14, has been provided counseling to help him accept another family, but continues to be unable to accept another family; or

iii) the child is otherwise deemed unadoptable.

- B) The Department shall strive to assure continuity of care, a sense of permanency, and emotional support for the child by establishing the child's permanent caretaker as the legal guardian of the child. However, taking legal guardianship is not required for the placement to be considered permanent.

- C) When weighing the advantages of a permanent family placement with relatives against the advantages of a permanent family placement with an unrelated foster family, the quality of the relationship between the relatives, the child, the child's parents, and the child's foster parents, if any, shall be a factor. In addition, other factors shall be the likelihood of establishing a permanent legal relationship between the child and the relative as compared to the likelihood of establishing a permanent legal relationship between the child and the unrelated foster parents.

5) Independence

Independence may be a goal for adolescents 16 years of age or older who have demonstrated the ability to care for themselves, who do not wish to be adopted, who are becoming economically self-sufficient, or who are establishing a family of their own. When the child becomes 18, the child must cooperate according to his service plan. If the child over 18 years of age or over does not cooperate, the Department may seek to terminate services and seek to end its legal relationship with the child.

6) Long-Term Care in a Residential Facility

- A) A very small percentage of children served by the Department are determined severely physically, mentally, or emotionally handicapped by a physician, psychiatrist, or other professional qualified by education or experience to make this judgment. These children require long term care, usually in an intermediate or skilled nursing facility, or in a child care institution. They are expected to continue to need this care in the foreseeable future. For these children, long-term care in a residential facility is the permanency goal.

- B) These severely physically, mentally, or emotionally handicapped children who require long-term care should not be confused with children who are in group homes or institutions in order to receive intensive, short-term treatment directed toward correcting problems which significantly interfere with life outside the institution. Long-term care in a residential facility is not an

DEPARTMENT OF CHILDREN AND FAMILY SERVICES

NOTICE OF ADOPTED AMENDMENT(S)

appropriate permanency goal for children who are receiving short-term, intensive services in a group home or institution.

- 7) Substitute Care Pending Court Decision Regarding Termination of Parental Rights

A) Substitute care pending court decision regarding termination of parental rights is the preferred permanency goal when a decision has been made to pursue termination of parental rights. This goal is to be established only when:

- i) Efforts to reunite the child and biological or legal family have been unsuccessful as documented in the case record; or

- ii) The evaluations of at least two professionals must find the parent(s) have a chronic incapacity which will not respond to rehabilitation and which makes it clearly improbable that the parents will attain minimum parenting standards. These professionals must be qualified by their education or experience in the fields of psychiatry, psychology, social work, developmental disabilities, chemical dependency, or other specialized areas of knowledge relevant to the pending issue. These evaluations shall weigh whether the parents can attain the minimum parenting standards (established by the Department) after considering the public, private and extended family resources which can assist the parents with caring for the children; and

- iii) The child, if 14 years of age or older, is in agreement with the plan to pursue termination of parental rights; and
- iv) Department legal staff determine if there is sufficient evidence to pursue termination of parental rights in accordance with paragraph 1501 (D) of the Adoption Act (Ill. Rev. Stat. 1983 1991, ch. 40, par. 1501).

- B) This goal shall continue as the permanency goal until such time as the court has granted or denied termination of parental rights, or until such time as a degree of progress is noted in the parent(s) situation which would require an evaluation of, and possible change in the established permanency goal pursuant to Section Sections 305-5 305.50 and 305-6 305.60.

- C) If the court grants termination of parental rights, this goal shall be changed to adoption. If the termination of parental rights petition is denied, another permanency goal shall be selected.

- 1) The Department has a case review system for all the children and families it serves. This case review system has two components: the administrative case review and the regular six month case review. Administrative case reviews are conducted for children living--for six months or longer in foster family homes which are licensed or approved as--meeting--licensing--standards, relative homes, group homes, or child care institutions, or detention, correctional, mental or physical health related facilities. In addition, the Department may elect to conduct administrative case reviews on other groups of children as fiscal and staffing resources permit.
 - 2) Regular six month case reviews are conducted for all other children and families served by the Department.
- b) Frequency of Case Reviews
- The first administrative case review shall be conducted within 45 days from the day the child entered substitute care. All subsequent case reviews, ~~case reviews~~, whether an administrative case review or a regular six month review, are conducted on every case at least once each six months unless a dispositional hearing conducted by a court or a court approved panel was held the month prior to a scheduled case review. In this instance, the dispositional hearing shall replace the case review.
- c) Purpose of Case Reviews
- Case reviews are conducted in order to:
- 1) decide whether the Department's continuing intervention is necessary;
 - 2) decide whether services, including placement services, are necessary and appropriate;
 - 3) identify services needed but which are not being provided to the child or family;
 - 4) assess the disability status of a child to determine the need for and/or appropriateness of specialized services;
 - 5) review the appropriateness of the child's educational placement and update the child's educational progress;
 - 6) decide whether the Department, the service providers, the family, the substitute care provider, if any, and the child are complying with the service plan and, if they are not complying, whether changes in the service plan are needed;
 - 7) decide whether there is progress to resolve the child and family's problems and whether the progress is satisfactory;
 - 8) decide whether the projected month for achieving the permanency goal should be changed;

 - 2) include the worker and/or supervisor from the Department and/or the substitute care provider agency which has case responsibility for both the children and the family;
 - 3) be open to the participation of the children's parents and their representatives. However, if parents are known to be violent and potentially dangerous to other participants in the review, they will be excluded. If the Department has filed a petition seeking the termination of parental rights, these parents will not be invited to the review;
 - 4) be open to the participation of children 7 years of age or older who are determined able to participate without excessive harm when considering their age, maturity, circumstances, and understanding;
 - 5) be open to the participation of the foster parents in the child's section of the review. Foster parents may be able to participate in other segments of the review if they have successfully completed training on the case review system and such participation is not prohibited by the confidentiality provisions of 89 Ill.  - 6) be open to the participation of the guardian ad litem and legal representative of the child for the child's section of the review. The guardian ad litem and legal representative may participate in other segments of the review in accordance with the confidentiality provisions of 89 Ill. Adm. review process.

b) The administrative case reviewer shall ensure that the review is congruent with Department rules and procedures and good child welfare practice and in compliance with 42 U.S.C. 675 and any consent decree affecting Department practice. This responsibility includes:

- 1) ensuring that the purposes of the administrative case review are carried out;
- 2) determining that the goal and the evaluation of progress are consistent with the facts of the case as presented at the administrative case review, that the outcomes, tasks and time frames are appropriate for the goal, and amending or changing the case plan accordingly; and

Section 305.80 Decision Review

a) When a service provider, including foster parents or relative caretakers, or the child's caseworker with supervisory approval, disagrees with any portion of the service plan, including any amendments made by the administrative case reviewer, the provider will be entitled to a review of the issue.

b) Requests for a review shall be directed, within 5 working days after the administrative case review, to the Bureau of Quality Assurance.

c) A decision review conference shall be held within 10 working days after the receipt of the request. A final decision will be made by the Deputy Director, Bureau of Quality Assurance, or designee, within 10 working days after the conference.

d) Except when an issue affects compliance with a court order or the residual rights of parents, implementation will be stayed until the decision review conference is held. The residual rights of parents as defined in Section 801-3 of the Juvenile Court Act of 1987 (Ill. Rev. Stat. 1991, ch. 37, Section 801-3) include the rights to visitation, to consent to adoption and to determine the minor's religious affiliation.

Section 305.110 Termination of Parental Rights

Some families are unable to achieve minimum parenting standards, despite comprehensive services and support from the Department. The Department shall seek the filing of a petition in court by the local State's Attorney for termination of parental rights, providing a child 14 years of age or older consents to adoption or a child, if under age 14 is able to accept another permanent family, when one of the grounds for termination of parental rights appears to exist, as specified in paragraph 1501(D) of the Adoption Act (Ill. Rev. Stat., 1983 1991, ch. 40, par. 1501 et seq.). The final decision as to the actual filing and prosecution of a termination of parental rights case rests solely with the local State's Attorney.

Section 305.120 Planning for the Termination of Services

a) Planning for the termination of services is an integral part of all service planning. From its earliest contacts with children and families, the Department shall focus on when and how services to the children and families shall end. In addition, when the Department is legally responsible for a child, the Department shall also focus on when and how the child shall be discharged from the Department's custody or guardianship.

b) If the child will be returned home from substitute care, the Department shall provide follow-up services for at least 90 days. These services shall consist of regularly scheduled telephone contacts, home visits, and family adjustment counseling if needed.

c) If the child will not be returned home from substitute care or the child will not be released from the Department's guardianship, but the permanency goal has been achieved and the child's situation is stable, Department intervention shall be reduced to the minimum possible. ~~Department--home--visits--for--these--cases--shall--be--conducted--at--least once--per--year.~~ In addition, children in substitute care will continue to be subject to case reviews in accordance with Department policy.

Section 305.130 The Department's Role in the Juvenile Court

a) The Department as an Advocate

1) The Department shall promote a partnership between the Juvenile Court and the Department. Since the Department is primarily responsible for providing public child welfare services to

DEPARTMENT OF CHILDREN AND FAMILY SERVICES

NOTICE OF ADOPTED AMENDMENT(S)

children and families, it shall make the Juvenile Court aware of the mission of public child welfare services. Furthermore, the Department shall advise the Juvenile Court of the Department's planning for the children and families it serves and of their progress toward those goals.

2) When in the Juvenile Court, the Department shall act as an advocate for children for whom the Department is legally responsible and their families and shall advise the Juvenile Court to keep families together in all instances when it is consistent with the children's safety and well-being. In those instances when children must be removed from their parent's care, the Department shall advise the Juvenile Court to reunite children for whom the Department is legally responsible with their families as soon as returning home is consistent with their safety and well-being. Finally, when it is clear to the Department that the child's parents are unwilling or unable to attain the minimum parenting standards, the Department shall urge the Juvenile Court that a new, permanent, home for these children is needed as soon as they are ready to accept another home because of the urgency of the situation from the child's perspective.

b) Juvenile Court Reviews

When the Department has court ordered legal responsibility for a child, the Department shall request Juvenile Court hearings when:

- 1) returning a physically abused or neglected child to the parent's home;
- 2) required by the Juvenile Court Act;
- 3) required by the Adoption Assistance and Child Welfare Act of 1980; and
- 4) for an Indian child, required by the Indian Child Welfare Act as explained in Part 307, Indian Child Welfare Services.

POLLUTION CONTROL BOARD
NOTICE OF ADOPTED RULES

SUBPART C: PROCEDURES FOR EVALUATING CHARACTERISTICS OF A TOXIC AIR CONTAMINANT

Section 232.300 Purpose

This Subpart identifies the procedures used to evaluate the characteristics of a toxic air contaminant. The Agency will use these procedures in proposing to list or delist toxic air contaminants in Section 232.310, Appendix A.

Section 232.310 Procedures for Determining the Toxicity Score

The Toxicity Score is the sum of the Acute Lethality Score and the Chronic Toxicity Score. The Acute Lethality Score is a number which indicates a contaminant's potential to cause death. The Chronic Toxicity Score is a number which indicates a contaminant's potential to cause adverse health effects after chronic exposure.

a) Procedure for Determining the Acute Lethality Score

- 1) The Acute Lethality Score is derived from toxicological studies using laboratory rats. One of two routes of exposure is used: inhalation or ingestion. Values derived from inhalation are used in preference to values derived from ingestion.

- 2) The Acute Lethality Score is derived from the following table:

Inhalation Concentration (LC50)	Acute Lethality Score
---------------------------------	-----------------------

Less than: 500 mg/cu. m	3
500-4,999 mg/cu. m	2
5,000-50,000 mg/cu. m	1
Greater than: 50,000 mg/cu. m	0

or, if the above data are not available:

Ingestion Dose (LD50)	Acute Lethality Score
-----------------------	-----------------------

Less than: 50 mg/kg	3
---------------------	---

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED RULES

50-499 mg/kg 2
500-5,000 mg/kg 1
Greater than: 5,000 mg/kg 0

b) Procedure for Determining the Chronic Toxicity Score

The Chronic Toxicity Score is the product of the Lowest Toxic Dose Score and the Severity of Effects Score.

1) Procedure for Determining the Lowest Toxic Dose Score

The Lowest Toxic Dose Score is a number based upon the lowest dose of a contaminant that causes an observable adverse health effect. The Lowest Toxic Dose Score is derived from the following table:

Dose	Lowest Toxic Dose Score
Less than: 5 mg/kg/day	1
5-50 mg/kg/day	2/3
Greater than: 50 mg/kg/day	1/3

2) Procedure for Determining the Severity of Effects Score

The Severity of Effects Score is a number based upon the category of organ(s) affected and the level of effect upon the organ(s).

A) Organ Categories

There are three categories of organs or organ systems which are identified as follows:

- i) Category I includes: organs, the impairment or loss of which is fatal or usually cannot be compensated for by the body; gonads, the loss of which prevents the transmission of genetic material; and, adverse reproductive outcome including stillbirth, miscarriage, or reduced litter size (animal studies). The category I organs are: Lungs, Heart,

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED RULES

Brain, Spinal Cord, Kidneys, Liver, Bone Marrow, and Gonads.

ii)

Category II includes: organs, the impairment or loss of which may be fatal, but which can be compensated for by drug or replacement therapy; adverse effect on an immune function which may be life threatening; changes in the composition or function of blood constituents which may be life threatening; and, certain fetotoxic effects including premature birth, reduced birth weight, and reduced morphometric parameters. The Category II organs are: Adrenals, Thyroids, Parathyroids, pituitary, Pancreas, Esophagus, Stomach, Small Intestine, Large Intestine, Lymph Nodes, Thymus, Trachea.

iii)

Category III includes: organs, the impairment or loss of which is not life threatening but may result in functional or emotional handicaps; adverse effect on an immune function which is not life threatening; changes in the composition or function of blood which are not life threatening but may result in functional handicaps. Category III organs include, but are not limited to: Oviducts, Epididymides, Uterus, Prostrate, Seminal Vesicles, Ductus Deferens, Penis, Vagina, Eyes, Bone, Nose, Peripheral Nerves, Muscles, Urinary Bladder, Blood Vessels, Ears, Gallbladder, Larynx, Mammary Glands, Salivary Glands, Skin, Spleen, Tongue, Teeth, Ureter, Urethra, Pharynx.

B) Levels of Effect

There are four levels of effect: Serious Irreversible (SI); Serious Reversible (SR); Non-serious Irreversible (NI); and Non-serious Reversible (NR).

POLLUTION CONTROL BOARD
NOTICE OF ADOPTED RULES

- i) A serious effect is an incapacitating condition or a condition which significantly contributes to an increase in mortality.
- ii) A non-serious effect is a non-incapacitating condition or a condition which is unlikely to contribute to an increase in mortality.
- iii) An irreversible effect is one that is permanent or would require medical treatment to correct.
- iv) A reversible effect is a temporary effect.

C) Table of Severity of Effects Scores

The Severity of Effects Score for any level of effect observed in an organ belonging to a specified organ category is derived from the following table:

Level of Effect	Organ Category					
	I	II	III	IV	V	VI
SI	6	5	4	3	2	1
SR	5	4	3	2	1	0
NI	4	3	2	1	0	0
NR	3	2	1	0	0	0
No Observed Effect	0	0	0	0	0	0

D) When a study identifies an adverse health effect on multiple organs within the same category at the lowest observed adverse effect level, the Severity of Effects Score is increased by a value of 1. In no event can the Severity of Effects Score be greater than 6.

- 3) Additional procedures for calculating the Chronic Toxicity Score are described in Section 232. Appendix B.

POLLUTION CONTROL BOARD

- 2) A Category 1 or 2A/2B Carcinogen by IARC; or
- 3) A "Human Carcinogen" or "Anticipated Human Carcinogen" by NTP; or

Section 232. Appendix B Additional Procedures for Calculating the Chronic Toxicity Score

a) Procedures to be used in selecting chronic toxicity studies.

1)

Chronic toxicity studies in which all of the items in subsection (a)(1)(A) of this appendix are identified or measured with adequate specificity to use the equations in subsection (b) of this appendix are to be given first preference.

A) Study items to be identified or measured:

i) Test species;

ii) Contaminant dose;

iii) Duration of exposure must be at least 21 days, except for developmental studies in animals,

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED RULES

in which case the duration of exposure must be during critical gestation days;

- iv) Route of exposure; and
- v) Effect of exposure.

B) In the event that two or more studies are available in which the items in subsection (a)(1)(A) are deemed to have been identified or measured, but which give inconsistent results, the study must be selected by the following procedures:

- i) In the event that two or more studies are laboratory animal toxicity studies, the study that is conducted in accordance with or consistent with Good Laboratory Practice Standards must be used. Good Laboratory Practice Standards are incorporated by reference in Section 232.110.
 - ii) In the event that the application of the procedure in subsection (i) fails to result in the selection of one study, then the study that results in the highest Chronic Toxicity Score must be used.
- 2) Studies that identify or measure all of the items in subsection (a)(1)(A) of this appendix, except for the contaminant dose, must be given second preference.

A) For a second preference study, the Lowest Toxic Dose Score for a given species and a given route of exposure must be determined according to the following table:

Species	Route of Exposure	Lowest Toxic Dose Score
Human	Inhalation	1
Human	Non-inhalation	2/3

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED RULES

Non-human	Inhalation	2/3
Non-human	Non-inhalation	1/3

B) In the event that two or more second preference studies are available, the study that results in the highest Chronic Toxicity Score must be used.

3) A contaminant for which there are insufficient data in the study to identify the elements of either a first or second preference study must be determined to have no data and be assigned a Chronic Toxicity Score of 0.

b) The following general equation must be used to obtain the dose in units of milligram per kilogram per day for the oral, gavage and inhalation routes of exposure:
$$\text{Dose} = (I)(C)(TCF)/UF$$

1) For the routes of exposure listed below, use the following:

TCF= Time Correction Factor of 1, unless the exposure was intermittent, in which case the fraction of time during which exposure occurred is used (e.g., 5 days/week = 5/7 = 0.71).

UF= Uncertainty Factor of 10, used only when data are for exposure periods less than 90 days. In the case of fetotoxicity and teratogenicity studies, an Uncertainty Factor of 1 must be used.

2) Where the exposure is oral use the following:

A) Oral Exposure via Food:

I= Food Intake in kilogram of food ingested per kilogram of body weight per day (kg/kg-d) (refer to Chart 1 for standard values);

C= Contaminant Concentration in food in units of milligram per kilogram (mg/kg); or

B) Oral Exposure via Water:

I= Water Intake in liter of water ingested per kilogram of body weight per day (L/kg-d) (refer to Chart 1 for standard values);

C= Contaminant Concentration in water in units of milligram per liter (mg/L);

3) Where the exposure is via gavage use the following:

The product (I X C) in the above equation must be replaced by Gavage Dose (GD) in units of milligram of contaminant ingested per kilogram of body weight per day (mg/kg-d); or

4) Where the exposure is via inhalation use the following:

I= Air intake in cubic meter of air inhaled per kilogram of body weight per day (cu.m3/kg-d) measured as the product of Ventilation Rate (VR) (refer to Chart 1 for standard values) and Inhalation retention factor (RF) (assumed to be 0.5 for this procedure);

C= Contaminant Concentration in air in units of milligram per cubic meter (mg/cu.m).

15) **Summary and Purpose of Amendments:** Several changes in the rules governing the Department's administrative hearing procedures are being adopted. The amendments address assistance appeal, child support, and medical vendor hearings.

Assistance Hearings: Changes in Section 104.10 concerning the initiation of assistance appeals, implement the statute establishing a toll-free telephone number for filing appeals (Public Act 87-630, which became effective January 1, 1992), and eliminate the statement that the notice of appeal is not effective until received by the Public Aid Committee or Department. The amendments also allow oral Food Stamp appeals.

Section 104.70, which addresses final administrative decisions in assistance appeals, is being changed to explicitly state that petitions for rehearing or reconsideration are not allowed. Neither previous rules nor current practice provide for reconsideration of final decisions by the Director. The amendment makes explicit that the only method of review is a complaint in court. This change parallels the amendment to Section 104.295 for medical vendor hearings. The amendments also correct the omission of Food Stamp appeals from Section 104.70(b).

Child Support Hearings: Amendments to Section 104.102 are intended to clarify the location in which child support hearings will be conducted and the manner in which out-of-state parties may present their case in the hearings. The previous provisions of Section 104.102(b)(2)(C) stated that the hearing will be conducted in the county of residence of the custodial parent. However, since the custodial parent rarely appears at the hearing, conducting the hearing in the county of residence of the custodial parent may subject the obligor to a hardship with no corresponding benefit to anyone. The amendments allow the hearing to be conducted in the county of residence of the obligor when the obligor is an Illinois resident.

The amendments also address the manner in which out-of-state parties may present their case in the hearings. The amendments correct the references to the statute which allows recipients to present their case through depositions and witnesses, rather than appearing in person. The amendments also allow parties to participate in the hearing by telephone. Several obligors have recently requested to participate by telephone.

Medical Vendor Hearings: Three changes are being made in the portions of Part 104 which address medical vendor hearings. First, Section 104.235 is being amended to clarify the limited materials which are subject to discovery in medical vendor hearings. Discovery is limited to the documents specified in this Section. The changes specify that the specific forms which are required in an inspection of a nursing home and reports prepared by medical consultants are subject to discovery. These amendments should reduce the uncertainty surrounding the availability of these documents.

Second, a new Section 104.248 is being adopted to provide for the disqualification of hearing officers. This addition is in response to a mandate in Public Act 87-823 which took effect on July 1, 1992. The act adds this requirement to the Illinois Administrative Procedure Act as Section 10-30(b) (Ill. Rev. Stat. 1991, ch. 127, par. 1010-30(b)). This statute requires agencies to provide by rule for the disqualification of an administrative law judge for bias or conflict of interest.

Third, changes are being made in Section 104.295, which deals with the Director's final administrative decision, to explicitly state that petitions for rehearing or reconsideration are not allowed. Neither previous rules nor current practice provide for reconsideration of final decisions by the Director. The amendment makes explicit that the only method of review is a complaint in court. This change parallels the amendment to Section 104.70 for assistance appeal hearings.

The Department does not believe that these amendments will have any significant fiscal impact on the persons regulated by these rules.

NOTICE OF ADOPTED AMENDMENTS

The Joint Committee on Administrative Rules did not request any changes.

14) Are there any amendments pending on this Part? No

15) Summary and purpose of rules: By this Notice of Adopted Amendments, the Department updates the Nonscheduled Bus Inspection Program. The Department first implemented this program in April of 1991. Since that time, Department employees have suggested ways in which this Part could be amended for ease of implementation. This rulemaking incorporates those suggestions and improves the program.

In Section 456.60 and 456.70, violation criteria are amended to reflect either more or less stringent penalties. Two new subsections were added in Section 456.60 which require officers of the Department to inspect for a Certificate of Safety (C/A) and a Pre-Trip Inspection Book. The Certificate and Book are required items on school buses but were inadvertently omitted from the last rulemaking. Four new subsections were added in Section 456.70 which require Department officers of a school bus which are not allowed on religious organization buses and buses registered as charitable vehicles. These items are also required on religious organization buses and buses registered as charitable vehicles, but, were inadvertently omitted from the last rulemaking. Other language was amended for clarification purposes.

Sections 456.80 and 456.90 were added to address violation criteria for alternate fuel school buses and special education school buses, respectively.

- 6) Summary of Action Taken by the Agency:

The Board initiated this rulemaking docket, R90-1A, in response to a proposal made by the Illinois Environmental Protection Agency. The proposal implements a mandate of Section 5(e) of the Environmental Protection Act. (Ill. Rev. Stat. 1991 ch. 111 1/2, par. 1009.5(c)).

On August 11, 1992, The Joint Committee on Administrative Rules objected to the proposed inclusion of the chemical styrene in an appendix listing 263 other toxic air contaminants (35 Ill. Adm. Code 232.Appendix A). The objection was that:

in failing to review and evaluate fully all of the relevant material submitted concerning the listing of the chemical styrene as a toxic air contaminant, the Pollution Control Board [Board] acted contrary to Section 5.40(a) of the Illinois Administrative Procedure Act.

On September 3, 1992, the Board adopted its Resolution and Order RES 92-1, R90-1(A), responding to this objection. In summary, the resolution stated that under the circumstances of this rulemaking, the Board agreed with the Joint Committee that additional consideration of available scientific data concerning styrene was appropriate. The Board deleted styrene from the Appendix A list, adopted the balance of the rules as proposed, and opened a Docket D in R90-1 to allow for additional consideration and a fuller explanation of the Board's rationale concerning action

to list or delist styrene. By Order of October 1, 1992 in R90-1, Docket D the Board established an additional comment period scheduled to close November 2, 1992.

FAMILY HEALTH MONTH

Whereas, Illinois Academy of Family Physicians (IAFP) has a history of dedication to our health and well-being and a continued commitment to upgrade the quality of available medical care; and

Whereas, because of the increasing technology in the medical care field, the complexities of the specialty structure of medicine, and the confusion about which physician treats which health problems, family physicians of Illinois are continuing to make available to our citizens a personal family physician to help guide them in their use of the health care industry; and

Whereas, family physicians coordinate the use of technicians, testing, subspecialty physicians, and hospitalization as necessary in a compassionate, continuing, supportive, and

understanding way; and
